Career Objective

A challenging opportunity with your organization, where my knowledge, skills and experience can extensively be applied and thus will benefit your organization, myself and to the entire human society.

Specialized Trainings

Technical Education: At present pursuing Automobile Technician Training at Volvo-Eicher Center, Amal Jyothi College of Engineering

About Amal Jyothi College of Engineering Eicher Centre for Automobile Training ACECAT

- Amal Jyothi College of Engineering Eicher Centre for Automobile Training (ACECAT) programme is a first-of-its kind venture by Amal Jyothi College of Engineering (AJCE), Koovapally, Kanjirapally, Kottayam and Volvo Eicher Commercial Vehicles Limited (VECVL). VECVL is a joint venture between Volvo Group of Sweden and Eicher Motors Limited.
- ACECAT intends to familiarize trainees with ways of repair, maintenance and overhauling of commercial vehicles, exposure to workshop operation and customer service management.
- Trainees were admitted through an aptitude test and interview conducted by ACECAT.
- ACECAT conducts a 12 month Automotive Technician Training Programme that comprises classes for 9 months and a three month internship programme at VECVL dealers across Kerala. The first 9 months of the training programme was a blend of theory and practical sessions followed by the 3 months internship period during when trainees underwent full time training in VECVL dealer workshops.

Experience

Completed internship at PSN Auto Mobiles Kalady for three months (May – August).
