MECHANICAL ENGINEERING PROJECT AND SEMINAR

Project Name : FABRICATION AND EXPERIMENTAL INVESTIGATION ON CLOSED LOOP PULSATING HEAT PIPE

The project is about the thermal performance of a pulsating heat pipe with de ionized water and aluminium oxide water nanofluid is experimentally investigated. The experiments are carried out on fabricated closed loop pulsating heat pipe which consists of an evaporator, condenser, adiabatic sections. Each section is attached with thermocouples for temperature measurement.

Seminar Subject : MOTION PLANNING METHODS FOR AUTONOMOUS ON-ROAD DRIVING

My seminar was about Autonomous Vehicles and it's motion planning methods. What is an autonomous vehicle, how it works and its possibilities are the main things I covered in my seminar.

INTERNSHIPS

- I did my first Internship at The Travancore Cements Limited, Nattakam, Kottayam, Kerala. It is a company owned and managed by the Kerala State Government.
- I did my second Internship at the Popular Vehicles and Services .
